

Whether it would be your 1st time at an Open Farm event or you've joined us previously in celebrating British farming, there will be something for everyone at this years event.

You could take a tour of our organic dairy farm and learn a little bit about British dairy farming, our cows and what they produce.

Visit our Farmer's Market, talk to some of our local producers and try some of their delicious produce. Or pop in to watch a cookery demos in the Savills' Demonstration Marquee.

Or head over to Tortworth Plants to take part in some kids activities or enter the Miniature Garden Competition (details and entry forms available on the website).

Once you've done all of that, it'll be time to sit on the grass and enjoy a burger or an ice cream.
